Satsona Soul Essence Sessions

offered by Renee Duval ***www.buddhablends.com***

Renee Duval, creator of Buddha Blends in 1998, has an experienced background in yoga, the healing arts, flower essences and esoteric sciences. She's also a Certified Aromatherapist.

Each individual essential oil has a unique energy signature that contains powerful healing qualities. These beautiful essences can assist with physical, emotional-psychological, and spiritual imbalances. The balancing effects are achieved by strengthening our personal bio-field which then supports our immune system that can better prepare us to face life's challenges.

A personal Satsona blend is formulated after getting a feel for your soul signature via your personal astrology, the tone of your voice, and any information we gather in our conversation. These blends work in conjunction with an attitude of personal responsibility for the health of one's own body, mind and spirit.

The consultations are via phone conference or skype. We'll review your astrology, numerology and go over any questions you may have at this time in your life. You'll receive a copy of your chart, details of important transits that are happening in your life, details on how to use your blend and and whatever insights are intuited. (If you choose to have the consultation without the personal blend, you may chose the option for suggestions only. Suggestions may include essential oils, flower essences, gems, color, etc.)

The phone conference is recorded. The work of personnal blending continues for approximately a week to allow the formulating of the essence to meet the core note of the current life theme you're working with.

If you would like to a receive a consultation, please purchase on the website: www.buddhablends.com. I'll contact you via email to set up an appointment and email you a questionnaire to fill out which includes your birth information, health history and fragrance preferences.
